## Our Startups Going Places!

We take immense pride in our startups becoming successful! Here are a few stories to give you a glimpse of where you could probably be as a startup one day! All the best!!

### Amvicube

URL: : <http://www.amvicube.com/>

The AMVICUBE PA 2.0 is a state-of-the-art paddy analyzing cube that is designed to help make informed decisions at minimum costs with maximum precision. We recognized Amvicube at the Elevate 100 event. They were declared winners under the India Israel Innovation Challenge. Under Agriculture, they were selected for developing affordable solutions to reduce post-harvest loss and improve market linkages.
