More coming up!

We take immense pride in our startups becoming successful! Here are a few stories to give you a glimpse of where you could probably be as a startup one day! All the best!!

**Jeevabhum**

**URL:** [https://jivabhumi.com/](https://jivabhumi.com/)

There is a gross mismatch in supply and demand of agricultural produce. While on one side, farmers are unable to find suitable markets for their produce on the other hand consumers are devoid of safe and affordable food. FOODPRINT – Jeevabhum’s platform is a produce aggregation and food traceability solution which aggregates the farm produce, provides market place services and implements traceability using technology such as blockchain to capture information of the produce at various levels in the supply chain.
